

AC's VS CodeRush/Refactor Tools for SharePoint Developers v1.1

<http://www.andrewconnell.com/blog/articles/ProductivityToolsForSharePointDevelopers.aspx>

General / Misc. Templates

assemblyfullname	Full name of an assembly, 4-part name.
ftd	Field type definition.
newguid	Generate a new GUID.
webpartxml	Generate contents of a *.webpart file, automatically filling in the Web Part's type (5-part name) if it finds one within the current project.

Feature Definition Schema Templates

fxml	Feature definition file contents.
frxml	Feature definition file for Feature receiver. If type inheriting Microsoft.SharePoint.SPFeature is found in the class, both the type and assembly full name are automatically filled.
fwxml	Feature definition file for Feature containing custom workflow that utilizes InfoPath forms.
fxml	Feature definition file contents.
